OVERNIGHT converts best (4.28%) but loses 35× more than GROUND

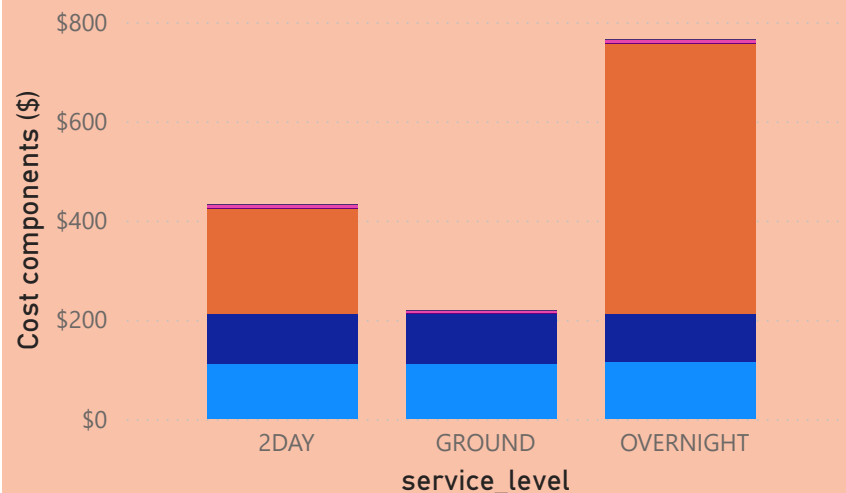

GROUND is nearly breakeven (−\$0.66). OVERNIGHT loses \$22.89 per impression

Linehaul and last mile are identical: the entire cost gap is the service premium

Linehaul... Last_mil... Service_l... Day_of... Peak_se...

Margin positive in only 1 of 12 months; April 2025 was a statistical outlier (x2 higher order value than avg), not a trend

Shipping cost rises 17% during peak season (\$293 → \$343), amplifying losses when CVR is already highest

CVR rises in peak season, but that makes losses worse
